

# PuriD™

## *A pure and simple solution to sustainability.*

*As part of Renewable Energy Group's EnDura Fuels™ product line, PuriD™ is a next-generation renewable fuel that's available today — to help you reach your sustainability and profitability goals with confidence.*

# 32.9M

*Backed by years of laboratory research and field testing and more than 32.9 million gallons of over-the-road use, PuriD™ is produced using advanced refining processes and testing procedures to meet Renewable Energy Group's next-generation quality standards.*

Stringent quality standards that exceed ASTM, CEN and CGSB biodiesel quality requirements

Developed specifically for virtually seamless blending with renewable diesel

Enables fuel users to confidently increase biodiesel blend levels year-round

Carbon Intensity (CI) scores that are much lower than petroleum diesel allow for decarbonization now

PuriD™ blends with petroleum diesel can be managed using the same cold flow properties you use to manage your petroleum fuels

# PuriD™

PuriD™ is produced using advanced refining processes and testing procedures to meet Renewable Energy Group's next-generation quality standards.

### Our focus is on your success.

For more than 25 years, we've helped industries implement practical solutions to complex sustainability challenges by providing leading-edge quality, go-to-market agility, sustainable partnerships and sensible decarbonization strategies.
