Clean performance now.

We’re leading the way toward a brighter future by transforming renewable resources into cleaner fuels that reduce emissions, improve engine performance and create green jobs.

**Company Facts**

- 25+ year history of leading the way toward a cleaner, greener future
- Headquartered in Ames, IA
- Founded in 1995
- 11 total biorefineries, including our RD production facility
- 1200 employees worldwide
- $3.2 billion in revenue based on 2021 sales

**By The Numbers**

| 480 | 480 million gallons biodiesel and renewable diesel produced in 2021 |
| 44/6/19 | Product sold in 44 U.S. states, 6 Canadian Provinces, 19 other countries |
| 4.1M | 4.1 million metric tons carbon reduction |
| 78% | 78% feedstock from waste and residual streams |
| 58% | Sales of UltraClean Blend™ increased 58% in 2021 |
| 470 | MMGY Aggregate Nameplate Capacity |
InfiniD™ is a high-quality biofuel for use in all conventional diesel applications.

- Enables decarbonization today with much lower Carbon Intensity (CI) than petroleum diesel
- Sustainable oxygenated fuel option that can improve combustion quality and lubricity of petroleum fuels
- Cleaner engine emissions: decreases harmful pollutants in tailpipe emissions from legacy engines and reduces the burden on New Technology Diesel Engines (NTDE) emissions control systems (fewer DPF regenerations, for example)
- Compared to petroleum diesel, InfiniD™ can reduce engine emissions by:
  - Up to 100% for fossil carbon¹
  - Up to 70% for total hydrocarbon²,³
  - Up to 70% for particulate matter³

PuriD™ is produced using advanced refining processes and testing procedures to meet Renewable Energy Group’s next-generation quality standards.

- Stringent quality standards that exceed ASTM, CEN and CGSB biodiesel quality requirements
- Developed specifically for virtually seamless blending with renewable diesel
- Enables fuel users to confidently increase biodiesel blend levels year-round
- Carbon Intensity (CI) scores that are much lower than petroleum diesel allow for decarbonization now
- PuriD™ blends with petroleum diesel can be managed using the same cold flow properties you use to manage your petroleum fuels

UltraClean BlenD™ is a proprietary, 100% renewable fuel combination of VelociD™ and PuriD™ that allows decarbonization today in virtually any diesel application.

- Superior lubricity to renewable diesel and can even have a lower freezing point
- Carbon Intensity (CI) scores that are much lower than petroleum diesel allow for decarbonization today
- UltraClean BlenD™ can provide the lowest overall engine emissions of any diesel fuel option
- Elastomer swell, density and bulk modulus properties of UltraClean BlenD™ are a better match for conventional diesel than 100% renewable diesel

VelociD™ is a clean-burning, ultra-high Cetane hydrocarbon renewable fuel.

- Stringent quality standards that exceed ASTM, CEN and CGSB specification requirements
- Low Carbon Intensity (CI) enables decarbonization today
- Compared to petroleum diesel, VelociD™ can reduce engine emissions by:
  - Up to 100% for fossil carbon¹
  - Up to 40% for particulate matter³
  - Approximately 15% for nitrogen oxides (NOx)³

BeyonD™ is a low-carbon sustainable aviation fuel (SAF) that will help lead the decarbonization of the aviation industry.

- Meets the ASTM D7566 fuel specification
- Produced with no fossil carbon, allowing dramatic reductions in direct aircraft fossil carbon emissions¹
- Clean-burning blendstock for petroleum jet fuel

¹ Product is produced utilizing 100% renewable oils and fats. Methanol used to make biodiesel and hydrogen used to make renewable diesel and SAF are typically made from conventional natural gas.

³ Reductions based on emissions data from California Air Resources Board and compared to U.S. federal ULSD, (Durbin, et al., 2011)
Fueled by people.
More than fuel producers—we’re your fuel experts. We not only deliver the highest-quality transportation fuels, our knowledgeable team can also help you manage your fuel supply to ensure you maintain optimum performance in all four seasons.

Production - Distribution - Fuel Services - Retail Facilities
From the production of sustainable fuel to filling up your tank, Renewable Energy Group is your integrated sustainable fuel partner.

REG Access
REG Access is an easy, secure and free way to receive information about your Renewable Energy Group transactions, including invoices, bills of lading and biodiesel tax credit paperwork. It gives you control and eliminates paperwork access issues.

+ One-stop shop
+ Available 24/7
+ Safe and secure
+ Simple to use
+ Easy to enroll

INDUSTRIES WE SERVE

Fleets: on-road (carriers, shippers, private fleets) and municipalities
Mining
Marine
Rail
Construction
Heating Oil
Retail
Chemicals
Power Generators
Agriculture
Emergency Services
Institutional Bus
Data Centers

REG BEST-IN-CLASS InfinD™

PROVIDES CO₂ REDUCTION OF

88% VS. ULSD¹
56% VS. EV AND U.S. GRID AVERAGE ELECTRICITY²
30% VS. EV AND CA GRID AVERAGE ELECTRICITY³

1 REG best-in-class InfinD™ is UCO biodiesel from Albert Lea biorefinery
2 Carbon reduction based on life cycle analysis based on CA-GREET 3.0
3 Carbon intensity for EV’s based on eGRID 2020 figures and EV EER of 3.8 for transit buses per National Renewable Energy Laboratory
Our Values: These define who we are and guide our actions:

1. SAFETY
   Always
2. INTEGRITY
   Honest, fair and transparent
3. HUMANITY
   Authentic, respectful and caring
4. DRIVING RESULTS THE REG WAY:
   + Collaboration
   + Innovation
   + Dedication and passion
   + Effectiveness — Intelligent, focused and reliable delivery

Our Mission: It’s what drives each of us every day. We are committed to:

SUSTAINABILITY
+ Accelerating the transition to renewable, clean energy
+ Producing clean, sustainable fuels and making them readily available to customers
+ Vigorously growing a financially sustainable company

CREATING COMPELLING VALUE FOR:
+ Society
+ Our ecosystem
+ Employees
+ Customers
+ Shareholders

Our Purpose: This is why we do what we do. It consists of four related elements:

+ Creating a cleaner world
+ Reducing Greenhouse Gases (GHG) and carbon footprint
+ For now
+ For the future

Endura Fuels
Scalable. Reliable. Responsible.
